These men are all sound energetic business men of this city, and their names connected with any enterprise is a guarantee of its success.

FUR FARMING is claiming the attention of the whole world today. Why?

It is a fact that there are thirty millions of Dollars invested in this industry in Canada and no record can be found where the investor has ever lost a dollar either as a shareholder in a company or as a private ranch owner.

Not only do investors see great profits in breeding fur bearing animals in captivity for their pelt value, but with Canadian, Russian and United States governments issuing reports on the industry and Britain becoming very much interested. When you consider the limited supply of animals in captivity, how long will it take to supply the demands of these countries with breeders? Note what the Montreal Trade Bulletin says regarding this:

"Regarding the future of the industry on a breeding basis, it looks good for anywhere between ten and fifteen years, judging by the interest developing in all quarters."

One thing you may be sure of, is the fact that prices for breeding animals will not be lower than they are at the present time for many years to come. When the industry gets down to a pelt basis, read the following facts regarding FUR FARMING:

THE FUR INDUSTRY

THE FUR INDUSTRY

Fur-farming is a new industry in Canada. Although the business of raising Silver Foxes in captivity is now well understood in Eastern Canada, and more particularly in Prince Edward Island, it is as yet a comparatively new industry in Western Canada. Generally speaking the people of the West have not looked carefully into the business and some are sceptical of the great profits of the industry and doubtful as to its permanency. While the demand for animals for breeding purposes remains sufficiently active to take care of the total output, the profits to ranch owners will continue to be enormous. In this connection we quote from the well known Journal "Canada" published in London under date of February 7th, 1914. Mr. Hobson Black says: "It was inevitable that the world's supply of furs should give rise to animal breeding as an industry. As Canada was the greatest offender in ridding forests and streams of fur-bearing animals, it is not surprising that the Dominion has taken most vigorous and practical steps to win back by artificial means the rich resources which primitive extravagance cast away. It is not impossible that in another hundred years the raising of animals for their fur will be as common as the raising of cattle for beef. One thing beyond dispute is that breeding foxes, skunks, mink and beaver and other small animals in captivity can be successfully carried out with generous profits and the certainty of an upward market."

DEMAND AND SUPPLY

Stated in general terms, fur has become scarce because less is produced and more is used than ever before. The large volume of trade and the rapidly rising prices of furs, together with the impossibility of any additions to the quantities captured by trappers and hunters has impressed on the whole world the immense possibilities in the domestic production of fur. There is no gainsaying the fact that Black Silver Fox Fur is today the most fashionable and beautiful fur on the market—the genuine article being the most attractive to the world's nobility—and the dyed or imitation to those of ordinary circumstances. A number of furs are at present on the market, such as the Sea Otter, Seal, Russian Sable, and a great many other wild animals are becoming extinct, and those that are left are being captured by trappers and sportsmen and it looks very probable that in a few years the fur market will wholly depend on the furs derived from domestic production. That being the case and we all thoroughly understand that these facts, have we not a great future ahead of us in the fox industry?

The growing use of the automobile and the more general habit of living out-of-doors have made furs almost a necessity. In America alone, the valuation of automobiles is now over 1,500 million dollars, and a proper equipment for the luxurious vehicles and their occupants necessitates the use of many millions of dollars worth of furs and leather. Better roads, more extensive travel, and cheaper automobiles are important factors in determining the growing demands for fur and pelts generally.

INCREASING PRICE OF FUR

The following extract from a book recently issued by the Conservation Commission of the Canadian Government shows how rapidly the price of furs is advancing. It summarizes the percentage increase in prices for the more valuable Canadian fur-bearing animals:

Kind of Skin	Percentage Increase in Prices			
	1892-1901	1902-1911	1892-1911	over
Fox, Silver	155	55	300	182-1902
Fox, Cross	10	100	125	
Fox, Red	85	85	245	
Fox, Blue	20	155	100	
Fox, White	120	100	350	
Martin, Pine	470	15	650	
Fisher or Pekan	430	40	430	
Mink	60	150	300	
Skunk	20	110	150	
Muskrat	230	230	230	
Lynx	25	130	200	

"Thus it is seen that an increasing demand has elevated the price rapidly in the past decades, and it may be added that the increase in prices in furs during the past three years is greater than ever before." At the June sales, 1913, the London price of Silver Fox advanced 25 per cent., and January sales, 1914, advanced 50 per cent.

PROFITS

As fur-farming, as yet, is in its infancy in the Province of Alberta, an estimate of the profits of a fur-farming company should not be too difficult to give, but in this connection we give the following extracts from the Charlotte-town Guardian, of November, 1912:

The following Fox Companies have declared dividends to date:

RANCH	Authorized Capital	Dividend	Dividend %	Cash
Brimbury	\$30,000	320	85,000	319
Spring Park	60,000	400	40,000	30
Prospect	60,000	300	60,000	100
Smith	150,000	40	60,000	40
Dillon	60,000	40	250,000	40
Silver Tip	100,000	95	25,750	42
Murray Harbor	50,000	300	100,000	300
Natic	100,000	175	175,000	172
Eureka	30,000	175	52,500	175
Natic	100,000	60	114,000	60
Haverhill Farming Co.	50,000	225	112,500	225
Maritime	40,000	335	53,333	332
(Paid in cash with one fox still for sale.)				
Regatta	50,000	310	170,000	340
Plumber	40,000	250	100,000	39
North Shore	100,000	225	225,000	225
Donmont	10,000	1,000	50,000	500
Yale Valley	75,000	50	37,500	50
Nelique Silver Fox Co.	40,000	30	30,000	75
(And one fox still for sale.)				

The average dividend of these companies is 170 3-7 %.

When you consider that in these ranches Foxes are capitalized at from fifteen to thirty thousand dollars a pair, and the Twin City Silver-Black Fox Co. of Alta., Ltd., will have ten pairs capitalized at \$16,500, allowing out of that \$1,500 for cost of organization and disposing of capital stock, we leave you to imagine what the profits should be.

THE SUCCESS OF BREEDERS IN ALBERTA THIS YEAR HAS PROVEN BEYOND DOUBT THAT FOXES BREED BETTER HERE THAN THEY DO IN THE EAST, AND AS THE FOXES OF THE TWIN CITY SILVER-BLACK FOX CO. OF ALTA., LTD., WILL BE UNDER THE CARE OF AN EXPERIENCED RANCHER THE SHAREHOLDERS WILL HAVE THE ASSURANCE OF LARGE RETURNS.

We, the undersigned, heartily recommend the capital stock of this Company, and believe that the shareholders will receive wonderful returns on their money. We would advise you however, to act quickly, as we do not believe that the shares will last long.

One good investment is worth a lifetime of labor. Send in your application today. Shares \$10.00 each, 50% with application. Balance last day of August.

NOTE

We have a few shares of the Capital Stock of the P. E. Island Silver-Black Fox Co., of Alta. at \$25 each, par value \$20. This company can sell out today at 175 cents on the dollar.

GROWING FOXES IS AN EXCEPTIONALLY PROFITABLE TRADE

One of the most profitable occupations established in Canada is the raising of black foxes for breeding purposes and for the fur trade, according to Colonel Smith of Prince Edward Island, who was spending a week in Edmonton. Mr. Smith is interested in

one of the many corporations on the island whose business is the breeding and sale of the animals. "These prices bring enormous profits when sold," he declared. "The pups are usually sold for \$15,000 a pair and we have paid as high as \$11,000 for a single female fox. The record price for the island was \$12,000 for one pair of exceptionally fine animals. "The occupation is profitable, moreover, from a fur selling standpoint, since the fur brings high prices

on the market. One fur in London was sold for \$2,500. "In my opinion the Alberta country is suitable for fox raising, since the weather conditions and general surroundings, I believe, would prove beneficial to the animals. As a matter of fact three pairs of the animals have been sold to Calgary men. The animals have been left on the island, but their owners will doubtless remove them to Alberta before long. Some of the fox companies in Prince

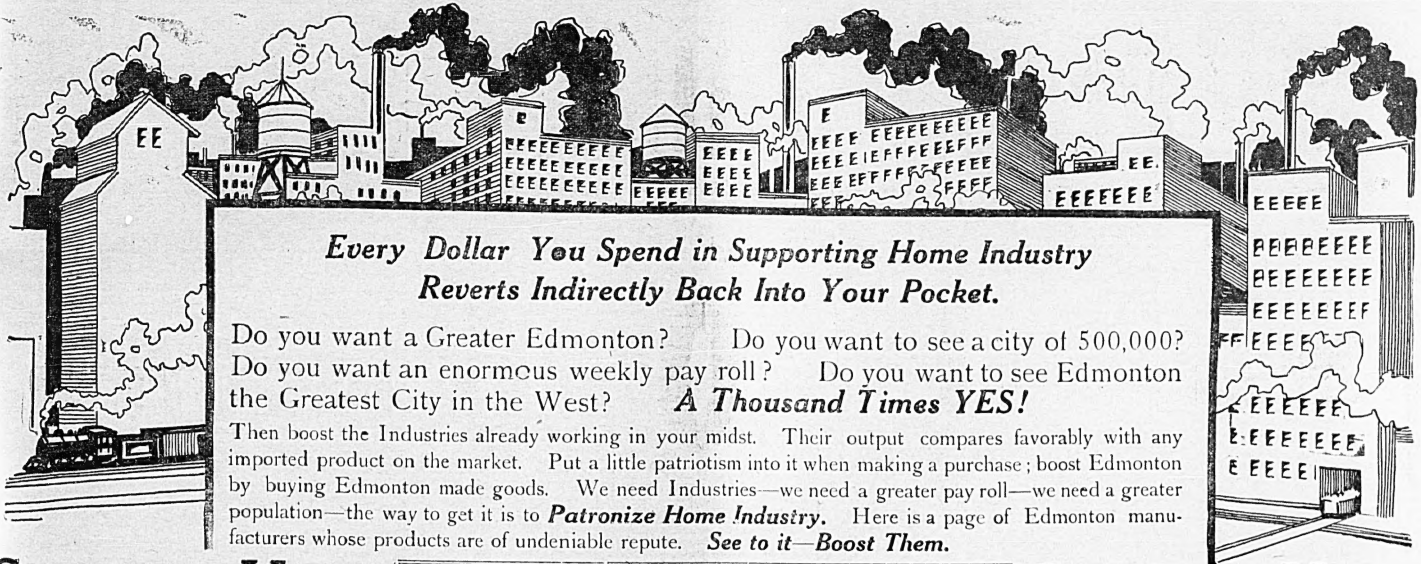

Edward Island and elsewhere have paid dividends which would make even a successful oil concern sit up and take particular notice. Many shrewd business men with wide interests are becoming heavily interested in fox companies. The provincial government is alive to these facts and is already enacting laws and regulations governing the exportation of live foxes from the province and other matters which vitally concern the industry. It is not im-

probable that very large profits will be made by those who invest in this industry in Alberta, as in other parts. To aid the industry and regulate the conditions under which it is carried on in the Edmonton district a fox exchange has been organized. Alberta, because of its size, location and natural advantages from a fox raising standpoint, gives promise of supplying Prince Edward Island as the premier country in the world for that industry. It is as yet only in its

Sails For Hudson Bay. Ottawa, July 25.—The government steamer Albatross sailed from Halifax for Hudson Bay with all the materials and equipment for the erection of the steel lighthouses to be built along the Hudson straits and bay. The steamer Annan will also sail in 10 days with supplies for Port Nelson.

Unemployed in Regina. Regina, July 25.—Over 400 are unemployed in Regina according to Chris Webber, local immigration officer, who Thursday replied to a telegram from Bruce Walker, commissioner of immigration at Winnipeg, asking for this information. German Cruiser For Hayti. Kingston, Jamaica, July 25.—The cruiser Dresden yesterday received urgent orders to proceed to Hayti.

EDMONTON INDUSTRIES NEED YOUR SUPPORT

Every Dollar You Spend in Supporting Home Industry Reverts Indirectly Back Into Your Pocket.

Do you want a Greater Edmonton? Do you want to see a city of 500,000? Do you want an enormous weekly pay roll? Do you want to see Edmonton the Greatest City in the West? **A Thousand Times YES!**

Then boost the Industries already working in your midst. Their output compares favorably with any imported product on the market. Put a little patriotism into it when making a purchase; boost Edmonton by buying Edmonton made goods. We need Industries—we need a greater pay roll—we need a greater population—the way to get it is to **Patronize Home Industry**. Here is a page of Edmonton manufacturers whose products are of undeniable repute. **See to it—Boost Them.**

BIG STOVEMAKERS TO LIKELY LOCATE A FACTORY HERE

Plant Covering 14 Acres May Be Duplicated at Manchester, South Side.

MOST OF MARKET IS IN WESTERN CANADA

Norman L. Macdonald Says Other Eastern Firms Also Contemplate Coming.

One of the largest stove manufacturing concerns in eastern Canada may locate in Edmonton, as a result of a recent visit to the east made by Norman L. Macdonald, the broker and manufacturer, who has been prominent in the development of Manchester, the south side manufacturing suburb, which will be the location of the big stove manufactory, should the firm decide to come here.

Mr. Macdonald had a conference while in the east with the firm, which has a plant covering 14 acres and employing over 400 hands. One of the company's officials told him that 75 per cent. of its market was in the west, and Alberta was a particularly good trade outlet for the company's stoves because of the fact that they are peculiarly well adapted for Alberta coal.

The general manager of the company is expected here next month, and if satisfactory arrangements can be made with the city for power and other facilities, it is probable that a duplicate of the company's big eastern plant will be built at Manchester.

FINDING NO SEAT, HE WOULDN'T PAY FARE

Trenton, N. J., June 25.—A passenger who refuses to pay a fare on a railroad train unless provided with a seat is not a disorderly person within the meaning of the act of 1911, according to an opinion filed in the Supreme Court by Justice Swayne, setting aside the conviction of Calvin Burns.

Burns boarded a crowded car of the Atlantic City and Short railroad at Pleasantville. He refused to pay his fare on the ground that he had no seat,

and remained on the car, although he might have alighted at two regular stops.

There was no declaration that Burns entered the car with the intention of travelling without paying his fare, nor was there proof that he had violated any rule of the company.

Hawkins county, Tenn., recently accomplished a notable feat in consolidation. Four schools were consolidated; and the new building provided is a 4,500 structure with six acres of good land, located on a pike road.

BIBLE SAYS HUSBAND SHOULD WASH DISHES

Clerfield, Pa., July 6th.—A great step toward the emancipation of at least one woman from household drudgery has been gained, according to Mrs. Harriet Trentiascott, a suffragist, who after two years of effort has persuaded her husband that he should wash the dishes.

Trentiascott often quoted Scriptural texts to prove that the household duties belonged to the wife. Mrs. Trentiascott, while reading her good

book, came across the following verse in second Kings: "I will wipe Jerusalem as a man wipeth a dish, wiping it and turning it upside down."

She showed him the verse and Trentiascott got busy with the dishes.

Railroad ties made of reinforced concrete into which asbestos fibers have been introduced, tried out on a Bavarian railway, can be drilled and hammered like wood, which they far outclass.

New York city is said to have over 150 known lepers running at large.

IF NEW SHAMROCK CAN CARRY HER RIG SHE WILL BE WONDER

Measurements of Sir Thomas Lipton's New Challenger Prove Her the Most Remarkable Yacht Ever Built—Under American Rules She Will Race at 92.

New York, July 25th.—The Shamrock IV, if she can carry successfully her present rig, will be the most remarkable yacht ever built. Her mast from deck to truck is 152 feet. There are eight feet in the step and from the water line to the cap 40 to 159 feet. Above this a club topmast is set, carrying the club 20 feet higher, so that when racing under all her canvas she will tower 179 feet above the water. This is 11 feet higher than the Bellanca when she had her club topmast set. These figures are not guess work, but have been furnished by a yachtsman who is in the confidence of Sir Thomas Lipton and Designer Charles Nicholson.

The boom of the Shamrock is 56 feet, her gaff 45 feet, her bowsprit outboard nine feet, and the base of her fore triangle, that is from the fore side of the mast to the end of the bowsprit, 42 feet. Figuring on this spar plan, the yacht will carry more than 10,000 square feet of canvas, or 2,000 square feet more than the Resolute.

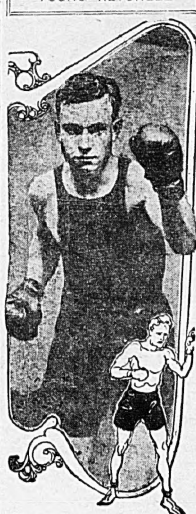

Compared with the Resolute, her mast is 34 feet higher. Like the Resolute, she carries a single head rig. Designers are coming to the conclusion that this is the better rig, as in addition to being better for turning to windward it cuts down the rating.

Heavy Penalties

It has been figured by Nicholson that under the American rule of measurement the Shamrock IV will rate about 92. She has incurred a big penalty on the quarter beam measurement, but has such an enormous sail spread that it is figured that she will easily make up what she has to pay for her freak masts. The Resolute, which sailed at \$8.09, and should these two yachts meet in the cup races in their present trim the Shamrock IV would have to allow the Resolute 16.18 seconds a mile, or eight minutes four seconds over a 20-mile course.

The Shamrock is built to be a racing yacht. It is expected that she will be wonderfully fast with the wind over her quarters. Nicholson has carefully studied the records of the cup races, and he finds that in the majority of them the wind was shifting and at times the windward leg has become a reach and the leeward leg also became a reach. In the triangular course two-thirds of the distance sailed are reaches. He thinks that the challenger will do well turning to windward, but the minute the sails with sheets and she can get her side down to the water she will easily outdistance the Resolute.

AUSTRALIA IS THE SPORTING WORLD'S CENTER

Four Six and Ten Round Contests Being Taken Root Across Pond.

San Francisco, Cal., July 25.—Australia is doing more to secure the boxing center of the world. Showy Baker with his Stadium company has established a boxing ring that has either forced or bought out all rivals and that can now pay unlimited sums to get the greatest championship matches.

"Four six and ten round contests have never taken root in Australia," says a Sydney publication. "All contests meet over the full line distance route of twenty rounds, and this fact, combined with the enterprise shown by the public to clean, well-conducted boxing contests, has made it indicate that Australia is rapidly becoming the world's principal boxing ground."

As "the world's principal boxing ground" Australia should see a little fun as soon as all the world's best boxers are convinced that Mr. Baker's money is the real article.

"The last competition," says the correspondent, "was the first of the series for the absorption of the Olympic athletes. Both big stadiums in Sydney will be run by Stadium, Ltd. Melbourne, Brisbane and Adelaide, the four largest cities in Australia. The resources of the centralizing company are very great and there is no enterprise too big for it to handle."

INTER-CITY SOCCER MATCH TONIGHT

Calgary vs. Edmonton at South Side Grounds 7 p.m.—Special Car Service Direct to the Grounds—Admission Two-Bits—Return Game Next Saturday in Calgary.

Tonight at 7 o'clock at the south side athletic grounds the Calgary all-stars and the Edmonton all-stars meet in the first of the inter-city games. The return game will be played in Calgary next Saturday. Calgary rooters arrived in the city today on a special train and are here with the intention of cheering their team to victory, and the game should be the best of the season. A large crowd is expected. A special car service will be in operation direct to the south side grounds. The admission fee is 25 cents.

The Edmonton team is in the best of shape for the big contest and every effort will be made to win the first of the two games. E. V. Critchley will referee. The line-up of the teams will be as follows:

Edmonton—E. W. Parker; Kinsman and Sam Whitehead; McPherson, Baker and McGarry; Collier, Sonnen, Tweedale, Dickie and Jewell; Reserve, Bradford.

Calgary—Gillhooley; Melville and Anderson; Haig, McLean and Mortimer; Wakelyn, Feeney, Williams, Nisbet and Adamson. Reserves, Hitchen and Patterson.

HATTERS SHUT OUT AGAINST MILLERS

Were Shut-Out 4 to 0 in Good Game—Medicine Hat is in Midst of Batting Slump—Whisman Hits Fluky Home Run.

Medicine Hat, July 25.—Harnish out-pitched Lind yesterday and scored a shut-out on the locals, 4 to 0. It was a good game of ball and the fair-weather fans enjoyed it. The batting slump which struck Medicine Hat a week ago and has continued all week during which the lowly Bronks annexed a series from them, was still in existence. Harnish, however, must be given credit for pitching grand ball. This contest was perfect and his breaks sharp. Lind was given good support and was found when his team meant run. One of the hits was a fluke home run by Whisman, with two men on base, and put the game on ice. This occurred after Lind had hit Harnish and Yoho had singled. Price's double and G-Day's single gave them another in the eighth. Three Moose Jaw runs were cut off at the plate while sensational fielding by Martini and Daniels saved Lind from a bad walloping.

Score—
Medicine Hat ... 000 000-0 3 1
Moose Jaw ... 000 000 010-4 9 1
Batteries: Lind and Hiss; Harnish and Wally.

AUSTRALIAN TEAM AFTER THE DAVIS CUP

Easily Defeat the Canadians and Earn Right to Meet Germans Next Week—Made a Clean Sweep of the Series

Lake Forest, Ill., July 25.—Australia's great tennis team with Norman Brookes and Anthony Wilding as its mainstays, yesterday earned the right to meet the German team at Pittsburgh next week in the contest for the Davis cup. With a clean-cut victory over the Canadian doubles team, the Antipodians made a clean sweep of the series. Yesterday's match went to Brookes and Wilding in straight sets as did their singles matches Thursday. The scores were 6-4, 6-2, 6-4.

Again, as in the singles of the Canada-Hiss, Robert H. Powell and B. P. Schwengers, were outclassed, but they made a game fight, but by desperate rallies won the favor of the big crowd which watched the match on the Ontario club's courts. The lashing rain and lake breeze rejuvenated them, and they were better in doubles than singles, the Dominion stars yesterday made a much better showing than Thursday.

In placing the judgment they did as well in the main as their opponents but the latter carried out an aggressive smashing campaign from every point and never seemed at the end of their resources.

Both Brookes and Wilding thrilled the crowd with their splendid service, but it was the frequent volleys that furnished most of the exciting incidents. Time after time the ball was whizzing in the air and down strokes had sent it back and forth.

Occasionally the volley would be won on the singles side, but the course by Wilding or Brookes, while Schwengers and Powell depended almost solely on the lob, the lobbing as a rule presented no difficulties to the Australians.

Next week at Pittsburgh the Australians will meet the German representatives in a series for the privilege of playing the British team. Today exhibition matches will be played by Schwengers against Wilding and Brookes against Powell.

HEWITT BLANKED THE QUAKERS 2 TO 0

Allowed But One Fluky Hit—Cadreau and Russell Were Opposing Pitchers—Catcher Lemieux Fined Five Bucks for Dispute.

Saskatoon, July 25.—The Eskimos took the last game of the series from the Quakers here yesterday when Lefty Hewitt shut them out 2 to 0, and allowed them only one hit and a lucky run. It was at that, as the ball took a hard bounce in front of Russell and hit him on the face. The game was the best one of the series, only one error being made and it by the locals. Cadreau was sent in against Hewitt and in the first two innings the visitors put four hits, and three walks, which netted them two runs. Russell held them down to two hits and no runs for the remainder of the game. Hewitt was wild at times and issued four passes, but the locals could not hit him safe. Lemieux was fined \$5 for disputing a strike.

REGINA POLO

Made Even Break with Winnipeg Yesterday—Some Classy Playing.

Regina, July 25.—Playing against two strong teams for Winnipeg, the Regina country club team secured an even break yesterday. In the first match the Regina A team defeated the Winnipeg B, 4-2 and in the second, Winnipeg A won from Regina B, 6-2.

Regina's victory in the first game was called, McCallum and De Donabals' horses collided, the latter going down and pinning his rider to the ground.

De Donabals sustained a broken shoulder. He is the star of the local players and his absence in the remainder of the tournament will be a severe hardship. He and Whitmore played dashing polo for Regina while Judge McCallum and Critchley excelled for Winnipeg.

In the second match the Winnipeg team showed splendid team work and won easily. The Montague boys and Crossin were very prominent. The Regina men worked hard individually but could not cope with the system of the Manitobans.

MAJOR LEAGUE RESULTS

Pittsburgh, July 25.—Pittsburgh defeated the Phillies yesterday, 3 to 2. McQuillen, allowing only four hits, Paskert received a base on balls in the first inning and Tobert was hit on the side of the face by a pitched ball. He fell, bleeding, at the side of the plate and Tincup ran for him. Paskert scored on Wagner's single and Tincup scored on a single by Luderus. Pittsburgh scored one run in the first inning on Wagner's single and Wagner's triple. The home team made two more runs in the third inning on Kato's single, a seventh on Wagner's single on McQuillen's bunt, and a three-base hit by Menzer. Tobert's injury is not serious, but six time users were required to close the game in this check.

Buffalo, July 25.—(Federal)—Kansas City won a doubleheader from the Buffalo Federals yesterday, 6 to 2 and 12 to 1. All Buffalo pitchers looked alike to the visitors. Manager Schaffner sending six in, in the two games and put-

MAROONS BEAT FORT WILLIAM

By Score of 11 to 8 in a Game Featured by 27 Hits.

Fort William, Ont., July 25.—Before a crowd of 1,500 fans the Winnipeg Maroons defeated the Canucks, 11 to 8, last night in a game that was featured by heavy and regular hitting. The visitors collected 15 hits for a total of 25 bases, while the locals collected 11 for a total of 18 bases. At Purcher started for the Canucks but was driven to the bench in the first inning after two were down. Skinner was hit even under the ball going to all corners of the lot. Skinner's leaders were to the liking of the Canucks and he was decorated in the third with a lead. Dougan substituting. Wilkes hit a break home, the ball going behind a sign on the left field fence. With the score 7 to 6, in the sixth and two on, Alperant saved the day when he speared Lizzett's slithering liner down third base line.

Score—
Winnipeg ... 110 011 329-11 18 0
Fort William ... 012 002 100-8 11 4
Skinner, Dougan and Ellis; Purcher, Kramer and Derog.

A HEAR RIOT CALGARY GAME

Calgary, July 25.—In one of the most exciting games played here this season Regina took the first of the series from the locals by the score of 5 to 4. In the ninth inning, with the score against them, the Bronks succeeded in getting two men on bases. Gage put one into left field near the third base foul line. George Marshall, a local man who is umpiring in the absence of Johnnie Mackin, who is still on the job, then, nearly precipitated a riot when he called the ball foul. The decision lost the Bronks the game, for Ryan succeeded in pitching himself out of the hole after the decision was given in his favor.

Chief Battiste started for the locals, but was pounded out of the box in the eighth inning, and was relieved by Gage, who held the visitors harmless during the remainder of the contest.

Score—
Regina ... 100 000 310-5 10 2
Calgary ... 010 000 114-4 12 4
Batteries—Harris and Harris; Battiste, Gage and Welsholt.

Prepare For The Fair

SOON every man in Edmonton will be requested to appear in his best at the big Exhibition. If you are a wearer of good Clothes or if you wish to become a well dressed man, we can satisfy you.

"They Cost More Because They Are Worth More"

NEW YORK or London cannot produce better or newer materials—The Styles are always six months in advance of ordinary clothes and the confidence and correct assurance far outweighs the slight extra cost. We will be proud to show you—"Come ere long."

WESTERN RAILWAY NEGOTIATIONS AT A CRUCIAL STAGE

Believed Men Will Strike Unless Roads Offer New Concessions.

ANNOUNCEMENT EITHER WAY EXPECTED TODAY

Thought Employees May Agree to Arbitrate or Companies Recede.

Chicago, July 25.—Mediation by the Government between 58 western railroads and their engineers and firemen reached a crucial stage last night, according to Martin A. Knapp, member of the federal board of mediation and conciliation.

Judge Knapp stated, however, that members of the board were still in hopes of reaching a settlement. It is currently rumored that an announcement one way or the other will be made by the board today, either

HOMESTEAD ENTRIES IN SASKATCHEWAN SHOW BIG DECREASE

Ottawa, July 25.—Homestead entries for the month of May, for the four western provinces numbered 2,498, as compared with 8,425 for the same period last year, a decrease of 1,641. Manitoba entries increased from 227 to 516, and Alberta entries from 1,139 to 1,152. Saskatchewan entries, on the other hand, fell from 1,527 in 1913 to 875. The proportional decrease in British Columbia was even larger, the entries in 1913 numbering 281, as compared with 52 this year. During May 4,285 patents for 37,895 acres of land were issued by the interior department, as compared with 2,710 patents covering 425,519 acres for the same month in 1913. Americans head the list of homesteaders with a total of 545; Canadian homesteaders numbered 245; English, 238; Austro-Hungarians, 205; Russians, 191; Norwegians, 57; and Swedes, 42. Homesteaders for the month included one Japanese, one Chinese, and one African.

that the men have agreed to submit to arbitration or that the roads have decided to make new concessions.

A statement attributed to the employees a week ago, when it was announced that the United States' offer of mediation had been accepted, was that unless the roads offered some new concessions within the week the men would be inclined to terminate the mediation and strike.

OFFICIAL PROGRAM FOR RECEPTION OF DUKE OF CONNAUGHT

Arrangements All Complete for Monday's Vice Regal Visit to Edmonton.

BOY SCOUTS AND NEWS BOYS' BAND TAKE PART

All Citizens Are Invited to Attend Public Reception at Government House.

The following is the official program for the visit to Edmonton on Monday of Their Royal Highnesses the Duke and Duchess of Connaught and Princess Patricia:

The royal party will be met at the Grand Trunk Pacific station by His Honor the Lieutenant-Governor, accompanied by the Honorable the Premier of Alberta and His Worship the Mayor of Edmonton. At 10 o'clock Monday morning, the 10th Regiment will form a guard of honor which will be mounted, at the depot at 9:45 a.m.

His Royal Highness the Duke of Connaught, will inspect the guard, after which the party will be motored to the parliament buildings, going via First street, Jasper avenue and Seventh street, where His Royal Highness will be received by a guard of honor composed of boy scouts. Here the provincial and municipal addresses of welcome will be read. After the address the party will motor over the high level bridge to the university,

Unightly Warts Removed

The operation is simple and painless—Just apply Putnam's Wart and Corn Extractor. For fifty years it has been curing warts and will cure you too. Try Putnam's Extractor, 25c at all dealers.

where they will inspect the grounds and buildings.

Their Royal Highnesses will then be shown around the city by motor, leaving the university about 11:20 a.m. They will travel via Whyte avenue, Fifth street east and Saskatchewan Drive, where they will arrive at about 1:40. From Fifth street east they will go to the Highlands via the low level bridge, Jasper bridge and the newly paved road along the river front, where they will arrive at 12:20. From the Highlands they will return along the pavement and go north along Avenue street to Willow avenue, thence west to Norwood Boulevard and First street, thence south to Jasper, and west to 16th street, thence south to Victoria avenue, where, at the corner of 16th street and Victoria at 12:50 the Newscaps' band of 30 pieces will play a few selections. From Victoria avenue the party will leave for Government House, where they will arrive at 1 o'clock. The Highland Pipe band will meet the automobiles at the gate of Government House grounds.

Their Royal Highnesses have expressed a wish to meet as many citizens of Edmonton and vicinity as possible, and all are welcome to attend the public reception given at Government House to meet their wishes in this regard. The reception starts at 3 o'clock, and closes at 4 o'clock precisely. No cards of invitation are being issued.

At 4:30 the visitors will motor to St. Albert and call on Archbishop Leal and return to Government House for dinner at 8 o'clock.

The royal train will leave for Calgary about midnight.

A. C. GILLESPIE, Captain, Lieutenant-Governor's Secretary.

FARMERS CAN GET BOYS FOR HARVEST OR PERMANENT JOBS

P. B. Chadwick, superintendent of neglected children for Alberta, announces, that farmers and others requiring the services of boys, could in all probability get good boys for the harvest season or for permanent work by applying to him at the old paring ment buildings.

CINCINNATI MAN CURES EPILEPSY

Operates Not on Any Part of Nervous System But Large Intestine.

SUBJECT A MATRON OF 38 Suffers From Fits Twice or Thrice Weekly for Eleven Years.

Cincinnati, July 25.—A new and remarkable cure for epilepsy is the latest contribution to the medical world from the Cincinnati field. The new cure is reported by Dr. C. A. O. Reed, noted Cincinnati surgeon, and the treatment was given at a local hospital. The subject of the treatment was a matron of 38 years.

Strange as it may seem to laymen, the woman patient in this case was relieved of frequent and distressful fits of epilepsy; not by an operation on the brain, spinal cord or other portions of the nervous system, but by an operation on the large intestine. The patient had no serious illness except that she had epileptic attacks for the last 11 years. These occurred two or three times a week. The woman suffered a failure of healthy action in the digestive tract and when this was worse the attacks were worse. She was constantly in need of the use of laxatives. Dr. Reed's examination disclosed the fact that the large intestine had sagged out of its normal position. This caused two sharp angles in the tract and prevented the normal action. Dr. Reed operated on the offending large intestine and brought it back to its normal position. The woman recovered.

According to an Italian physician love causes an intoxication of the nervous centers, producing a disease that, if not cured, may lead to neurasthenia and even insanity.

We have obtained Oil and Surface Rights of N.W. 34 14-47-27, west of 4th.

Have lease of Oil and Gas Rights on all of Section 14-47, 27, west of the 4th meridian.

Our Prospects

We are the only people producing crude oil in Alberta today. This proposition is engaging the attention of oil experts, geologists, bankers, in fact the leading business men of the city and Province. Everyone who has seen our demonstrations has the same opinion—and terms it the best thing in Alberta. Our directors are business men of high standing, and this alone is sufficient to guarantee everyone a square deal.

Not a Speculation But an Investment

The shrewdest financial men see our proposition as revenue producer, inasmuch as we have the desired article and are going to manufacture various kinds of oil products. Our oil sands are yielding as high as 50 gallons of oil to the cubic yard, so this alone assures the public of the value of our deposits. All we need to do is to start manufacturing. We are without a doubt the Rockefeller of Alberta. Our president and manager has had thirty years' experience in the California fields, Kansas City Oil fields, and terms our find the best he has ever seen.

W. B. Channell, President and Managing Director of the Company, has had 30 years experience in the oil business, and up to two years ago controlled the largest independent oil and manufacturing company in the United States, located at Kansas City, Mo. He is capable of running 85 per cent. of the by-products of crude.

The promoters have pooled their stock for one year, the Quebec Bank acting as trustee.

50,000 SHARES ARE OFFERED TO THE PUBLIC at par value of \$1.00.
Proceeds of all stock sold positively to be used for development purposes only.
